THE CORRESPONDENCE OF CHARLES DARWIN
Frederick Burkhardt
P.O. Box 1067
Bennington, Vermont 05201

May 13/02

Dear Joshua –

Here is a little token of thanks for helping me with the Darwin illness problem – which coincidentally re-acquainted me with my doctor of almost 30 years ago (Jerry Barondes).

I find letters make very good bed reading – they're short and seldom grip you so you can't put the book down.

I also enclose a famous letter from CD about vivisection which you probably know about since it is a rare instance of a mention of Pasteur.

vivisection

I hope this finds you well and making progress on the anthrax problem you were advising the President on.

Best regards,

Fred
