Attacks on Folger's

To bring up the obvious.
(I've been chairing a task force on CBW terrorism for OTA).

I've read of the TV attack, picturing Folger's to Salvadorean blood!

Not heard much more + perhaps it has quietly down. But that type of mentality is quite capable of staging a scare, salting some Folger's with cyanide, or God knows what ... AIDS/blood - or phoning in a claim that they've done.

Not clear what to do, but top brass should work out in advance* how P+G might react to such threats - when (and what) to recall ... who takes charge.

Josh.

*may need coordination with FDA, FBI, CDC, ... too many other feds.
