missing each other

... really sorry I can't make this week.

I have been working very closely with Dick Danzig and Bill Owens on preparedness for BW, including but beyond the mission of the DoN. (I am very much depressed by the announcement of Owens' retirement: a major loss.)

I am told that Adm. Borda is fully sensitized to the same topic; and I'd be glad to pursue that further when time permits.

Sincerely,

J

P.S. I'm chairing a review of new technologies for ARPA & will share that with you too. Walt Morrow is on it.
