Dear Mrs. Virginia Alphar,

I heard you speak on the Phil Donohue Show, Wednesday, 4th of April. I have a problem that I am very concerned about. I need some advice very badly. This is one story that you won't believe However I believe its true. To tell the story, I have been married and I have a 5 year old daughter. The problem is I can't have any more children, because of a "midwife". My daughter was a week old, when ~~she~~ this midwife asked me if I wanted any more children, I told her no. She told me to drink a cup of perked black coffee and a tablespoon of ~~alum~~ ALUM (yellow in color) as hot as I could drink it. No sugar, no cream, just that. This remedy has

make me sterile. What can I do? I have gone to several doctors. I have told them my problem. No one believes me. I've been engaged to be married again. I've been engaged two years. There's nothing wrong with my fiance. Is it possible that I can have treatments that may correspond with this alum & perked black coffee? When my daughter was born, my doctor told me, I could have many children. This stuff, has ruined my system. Please help! If doctors do find this remedy true, what happens? Please keep this confidential, don't mention my name.

Thank you

Pat Cunningham

P.S. I've been to four doctors, they tell me my tubes are open. They say I'm in the best of health

Please, please help me. I'am begging you PLEASE, Don't laugh at me. Please, take this into consideration

Can you reccomend a good doctor in the Buffalo area? An older doctor, not a young men. I'd ~~two~~ like to see someone thats been in this business, just as long as you have

Thank again
